Put to light your brand

CUSTOMISATIONS

□ Semi-automatic

loading/unloading systems

rotary tables, stackers, traverse motions, rotors, etc... developed to facilitate and speed up the operator's job. Output rate: 500 - 800 pcd/h

□ Fully automatic

loading/unloading systems

chutes, belt conveyors, palletized chains etc.... To be installed in a production line. Output rate: 1.000 - 1.500 pcs/h

The speed of the marking process lends itself to automation.
